Dear Mr. Geary:

Thank you very much for your letter of December 15, 1961. I am very pleased that you were able to receive our station so far away from Washington.

Your comments are also appreciated with regard to programming. I am happy to certify your reception of our station by comparison with our logs.

Our power output is 4.1 kilowatts and our antenna 285 feet above ground. The transmitter is a 3 kilowatt R. E. L. formerly owned by Major Armstrong.

Thank you again for your letter.

Sincerely yours,

Roger Penn
